Time : Three Hours] [Maximum Marks : 80

Note : All questions are compulsory

1. Explain the following passage with reference to context : 10

Cart after cart groans through the roads of Kamthapura, and on many a night, before the eyes are shut, the last lights we see are those of the train of carts, and the last voice we hear is that of the cartman who sings through the hollows of the night. One cart passes through the main street and through the Potter's lane, and then they turn by Chinnay's pond, and up they go, up the passes into the morning that will rise over the sea.

(7)

Rama left us for Bombay the week after. But Rangamma will come out of prison soon. They say Rangamma is all for the Mahatma. We are all for the Mahatma. Pariah Rachamma's wife, Rachi and Sothamma and Thiramma are all for the Mahatma. They say they are men in Bombay and men in Punjab, and men and women in Bombay and Bengal and Punjab, who are all for the Mahatma. They

say the Mahatma will go to the Red man's country and he will get us Swaraj. He will bring us Swaraj, the Mahatma. And we shall all be happy. And Rama will come back from exile, and Sita will be with him, for Ravana will be slain and Sita freed and he will come back with Sita on his right in a chariot of the air, and brother Bharatha will go to meet them with the worshipped sandal of the Master on his head. And as they enter Ayodhya there will be a rain of flowers.

2. Read the passage given below and answer the questions that follow :

5×2=10

So Moorthy goes from house to house, and from younger brother to elder brother, and from elder brother to the grandfather himself, and what do you think ? - he even goes to the Potter's quarter and the Weaver's quarter and the Sudra quarter, and I closed my ears when I heard he went to the Pariah quarter. We said to ourselves, he is one of these Gandhi-men, who say there is neither caste nor clan nor family, and yet they pray like us and they live like us. Only they say, too, one should not marry early, one should allow windows to take husbands and a Brahmin might marry a pariah and a pariah a Brahmin. Well, well, let them say it, how does it affect us ? We shall be dead before the world is polluted. We shall have closed our eyes.

Questions :

- (i) Who is Moorthy ?
- (ii) Why does he go from house to house ?
- (iii) Why does he not hesitate in going to the Sudra quarter ?
- (iv) Who is the narrator of these lines ?
- (v) Who is the writer of this passage ?

(7)

Bade Khan was getting restless. Not only did the Patel look indifferent but he hadn't even asked Bade Khan to seat himself. So, he went up the three steps and sat by a pillar, his feet hanging down the veranda and his stick between his legs. They were silent for a moment. Then, 'He Chenna', cried Range Gowda, turning towards the inner courtyard. 'You had better go to the big field and see whether those sons of concubines are planting well. And tell Mada to hurry back before midday and fill the carts with sacks. Tomorrow is the fair :

Questions :

English education and English language have done immense goods to India, inspite of their glaring drawbacks. The notions of democracy and self-government are the born of English education. Those who fought and died for mother India's freedom were nursed in the cradle of English thought and culture. The West has made contribution to the East. The history of Europe has fired the hearts of our leaders. Our struggle for freedom has been inspired by the struggles for freedom in England, America and France. If our leaders were ignorant of

English and if they had not studied this language, how could they have been inspired by these heroic struggles for freedom in other lands ? English, therefore, did us great good in the past and if properly studied will do immense good in future.

English is spoken throughout the world. For international contact our commerce and trade, for the development of our practical ideas, for the scientific studies, English is indispensable "English is very rich in literature," our own literature has been made richer by this foreign language. It will really be a fatal day if we altogether forget Shakespeare, Milton, Keats and Shaw.

$$\frac{\sqrt{3}}{8} \leq \int_{\pi/4}^{\pi/3} \frac{\sin x}{x} dx \leq \frac{\sqrt{2}}{6}$$

Section II

4. (a) Examine the convergence of the integral :

2½

$$\int_{-a}^a \frac{x}{\sqrt{a^2 - x^2}} dx$$

- (b) Discuss the convergence of the Beta function. 2½

5. (a) Examine the convergence of :

2½

$$\int_0^{\infty} \sin x^3 dx$$

- (b) Evaluate :

2½

$$\int_0^{\infty} \frac{\tan^{-1} ax}{x(1+x^2)} dx \text{ if } a \geq 0$$

Section III

6. (a) For $1 \leq p < \infty$, if l_p is the set of all real sequences $x = (x_n)$ with $\sum_{n=1}^{\infty} |x_n|^p < \infty$ and

$$d(x, y) = \left(\sum_{n=1}^{\infty} |x_n - y_n|^p \right)^{1/p} \text{ for } x, y \in l_p.$$

Show that (l_p, d) is metric space.

2½

- (b) Prove that in a metric space (X, d) , every open sphere is an open set.

2½

7. (a) Prove that a subset F of a metric space (X, d) is closed iff its complement is open.

(Compulsory Question)

1. (a) Give an example to show that if $f + g \in R[a, b]$ then it is not necessary that f and $g \in R[a, b]$. 2
- (b) Show that every subset of a discrete metric space is open. 2
- (c) Define and give an example of a nowhere dense set. 2
- (d) Prove that every function from an infinite discrete metric space to any metric space is continuous. 2

Section I

2. (a) The necessary and sufficient condition for a bounded function f to be integrable on $[a, b]$ is that for each $\epsilon > 0$, there corresponds a $\delta > 0$ such that for every partition P of $[a, b]$ with $\|P\| < \delta$, $U(f, P) - L(f, P) < \epsilon$.

4

- (b) Let f be defined on $\left[0, \frac{\pi}{4}\right]$ by :

$$f(x) = \begin{cases} \cos x & ; & x \in Q \\ \sin x & ; & x \in R - Q \end{cases}$$

Show that f is not Riemann integrable on $\left[0, \frac{\pi}{4}\right]$.

4

3. (a) Verify first mean value theorem for the integral

$$\int_0^2 (4x^3 - 3x^2 - 4x) dx.$$

4

- (b) Prove that a continuous function on $[a, b]$ is integrable on $[a, b]$. Is the converse true ? Justify.

4

Section II

4. (a) Test the convergence of the integral :

4

$$\int_0^{2e} \frac{dx}{(x-b)^2}$$

- (b) Examine the convergence of :

4

$$\int_0^{\infty} \frac{x + \tan^{-1} x}{(1+x^2)^{3/2}} dx$$

5. (a) Discuss the convergence of :

4

$$\int_0^{\infty} \frac{\cos ax - \cos bx}{x^2} dx$$

- (b) Evaluate :

4

$$\int_0^{\infty} \frac{\tan^{-1} ax}{x(1+x^2)} dx \text{ if } a \geq 0.$$

(Compulsory Question)

1. (a) What is a Register Transfer Logic (RTL) ? Explain it with an example.
- (b) What is an I/O Interface ?
- (c) How is CISC architecture more effective ?
- (d) Explain the design of accumulator logic ? **2 each**

Unit I

2. (a) Compare register reference and memory reference instructions.
- (b) What is the format of an instruction for a computer ?

4,4

3. (a) How are timing and control signals generated by CPU (Central Processing Unit) ? 4
- (b) Show block diagram of the hardware that implements the following transfer logic : 4

$$T_2 : R_2 \leftarrow R_1, R_1 \leftarrow R_2,$$

Unit II

1. Explain with reference to the context :

(a) Where the wandering water gushes

From the hills above Glen-Car,

In pools among the rushes

That scarce could bathe a star,

We seek for slumbering trout

And whispering in their ears

Give them unquiet dreams;

Leaning softly out

From ferns that drop their tears

Over the young streams.

OR

The work is done, grown old he thought,

'According to my boyish plan;

Let the fools rage, I swerved in naught,

Something to perfection brought;

- (b) "The solid earth sways like the treacherous sea beneath the feet of men and spirits alike when the innocent are slain in the name of law, and their wrongs are undone by slandering the pure of heart."

OR

"Where What will the world be when The Church's accumulated wisdom and knowledge and experience, its councils of learned, venerable pious men, are thrust into the kennel by every ignorant laborer or dairy-maid whom the devil can puff up with the monstrous self-conceit of being directly inspired from heaven ? It will be a world of blood, of fury, of devastation, of each man striving for his own hand : in the end a world wrecked back into barbarism."

OR

To be honest, Mr Bhagwata Sir, I have doubts about this theory. I believe – in fact, I have doubts about this theory. I believe – in fact I may go so far as to say I firmly believe – that it is this sort of sentimentality which has been the bane of our literature and national life. It kept us from accepting Reality and encouraged escapism.
