

FEEDBACK ATR

Session-2019-2020

Consolidated Action Taken Report 2019-2020

Action Taken report Based on the feedback received from various stakeholder (Students, Teachers, Alumni, Employers)

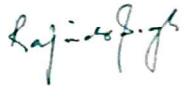

The feedback was collected from the stakeholders. The Analysis was done based on the Responses received. Following is the report of the action taken based on the action plan :

1. Courses offered by the Institute to students of different streams so as to bridge the gap between Academic and Industry for the session 2020-2021 are as follows:

- As mentioned by Teachers there is need to bridge the gap between curriculum and requirement of job market.
- To increase the scope for employability/entrepreneurship.

Sr No	Name of Add on /Certificate programs offered	Number of Students completing the course in the year
1	Yoga and Meditation Training Course	17
2	Circuit Design on PCB	17
3	Cricket Coaching	24
4	Handball Coaching	20
5	Hindi bhasha and E-Shiksha	29
6	Certificate Course on First Aid Training and Home Nursing	28
7	Certificate Course on Sound Design and Music Vocal	16
8	Certificate Course on Rhythm: Music instrumental (Percussion)	20
9	Certificate Course on Folk dances of Haryana	35
10	Certificate course on Theatre & Drama	35
11	Certificate course on Waste management	13
12	Certificate course on Fundamentals of Gene, Genome and Genetics	12
13	Certificate course on Introduction to VHDL	15
14	Certificate Course on Art and Craft	26
15	Certificate Course on Apparel Designing	13
16	Certificate Course on Basics of Interior Decoration	23
17	Certificate Course on Cosmetology	14
18	Certificate Course on Stress Management	14
19	Human Resource Management	38
20	Certificate Course on Aspects and Applications of Research	24
21	Certificate Course on Soft Skills & ICT Tools	67
22	Certificate Course on Aspects of Financial Management	40

Kurukshetra University Kurukshetra

Subject: Suggestions to be considered in UGBOS.

Dear Sir,

As per the feedback received by institution from the students /faculty /Alumni/Employers, a list of suggestions is forwarded to you to be considered in the upcoming meeting of UGBOS.

1. It has been a long and persistent demand of the students of the three year degree program of Bachelor of Science (B.Sc) be converted to CBCS. This will definitely facilitate the students not only earning extra credits but would also benefit them while seeking admission in different universities for higher studies.
2. In the paper of nuclear physics, a separate chapter on Basics of Particle Physics must be included in the syllabus. This will lead to uplift the knowledge of students and will help them to pursue higher studies with a strong knowledge of basic concepts of Particle Physics.
3. In the curriculum of B.Sc., there should be a separate paper on renewable and non-renewable energy that will lead to uplift the knowledge of students and will help them to pursue higher studies with a strong knowledge of different energy sources.
4. Scientific project must be included in the Course where students may enhance their skills as per the market requirement.

You are requested to consider the above suggestions in the meeting of UGBOS and take necessary actions.

Thanking You

Subject: Suggestions for the kind consideration of UGBOS meeting resulting from the feedback analysis from the stakeholders(Faculty/Students / Alumni/Employers) of the college.

Respected Madam,

This letter is to bring some points in the notice of UGBOS retrieved from the feedback taken from the teachers, students and alumni of Department of Chemistry of the College regarding the curriculum of the program. Some of the points are incorporated on the recommendation of employers to cope up the market and industry requirements. So, it is therefore brought to your kind consideration for improvement of existing set up of B.Sc Non-Medical & Medical in the subject of Chemistry.

Points for the consideration of PGBOS for the subject of Chemistry:

1. As the Choice Based Credit System (CBCS) provides an opportunity for the students to choose programs comprising core, elective/minor or skill-based courses, so, all the stakeholders has persuaded to adopt the CBCS system in the existing programs of B.Sc Non-Medical & Medical from the coming session so that the flexibility, applicability and industrial utility of the program may enhance.
2. The syllabus should be revised after every three years to introduce the students about the advancements in the subject and as per the requirements of the industry.
3. Industrial Training is the important part for professional development of students so a training aspect can be included in the curriculum.
4. Introduction of Spectroscopic techniques with their analytic utilities may be a fruitful initiative to put forth for a more practical understanding.

So, it is hereby requested to consider the above points in UGBOS for necessary actions regarding the same.

Thanks and Regards

Indra Yadav
Head, Dept. of Chemistry

Subject: Suggestions to be considered in UGBOS on the basis of Feedback analysis from Faculty/Students/Alumni/Employers of the college.

Dear Sir,

This letter is with reference to the feedback taken from the teachers, students and alumni of Department of Mathematics regarding the syllabus review and updation. After analyzing the students' views about the different questions asked in the feedback form, it is recommended that syllabus and curriculum need some changes and updation. Following recommendations are made regarding the syllabus updation. You are kindly requested to consider these recommendations to strengthen the syllabus for the subject.

The following are the recommendations as per the survey taken from the Mathematics students:

1. The Choice Based Credit System (CBCS) provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill-based courses. All the stakeholders are urging to adopt the CBCS system in all UG courses from the coming session i.e., 2021-2022 so that the flexibility and impact of the programmes can be increased.
2. The students of first year are studying the course Solid Geometry has to be changed from 1st semester to 2nd semester and vector calculus from 2nd semester to 1st semester.

Thanks and Regards

AMBALA CANTT -133 007
(Under S.D. College Society, New Delhi)

Dated 29/12/2020.....

Ref No. SDC/2020 -2021/3202

To

The Chairman
Dept. of Comp. Sci. & Appls.
Kurukshetra University,
Kurukshetra

Subject: Suggestions to be considered in UGBOS on the basis of Feedback analysis from Faculty/Students/Alumni/Employers of the college.

Dear Sir,

It is submitted that as per the feedback received from the above stakeholders and analysis done by the undersigned the following points are hereby submitted for your kind consideration regarding the syllabi of UG courses taught in the college:

- The Choice Based Credit System (CBCS) provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill-based courses. All the stakeholders are urging to adopt the CBCS system in all UG courses from the coming session i.e., 2021-2022 so that the flexibility and effectivity of the programmes can be increased.
- As per the feedback of employers, the syllabi of main professional courses like BCA/B.Sc. Non-Medical with Computer Science are pretty old and not industry oriented, so if a student pursue his/her career in software industry after his/her graduation, he/she is not a good fit with current knowledge. Hence the syllabi of these courses need updation in terms of courses and course contents as per the current industry needs.
- As per the feedback of the faculty, in programmes, students come from different backgrounds, hence there is a need of add-on/bridge courses to have the balance in the classroom for example, communication skills, personality enhancement, fundamentals of programming, Basics of documents/spreadsheets etc. So, you are requested to allow some bridge courses for students to be run by the college.

Contd. page 2

--2--

- Also, as per the feedbacks of the faculty, the focus of curriculum needs to be more practical oriented to match the needs of industry and real-life scenario, so there is a need to include more practical aspects for the students.

- As per the feedback of Students/Alumni/Faculty, the courses of a programme must include experiential learning through project work/field work/internship/on-the-job-training etc. to have the working exposure of industry to the students.

So, you are hereby requested to consider the above points in UGBOS and take necessary actions regarding the same.

Thanks and Regards

Dr Girdhar Gopal

The Chairman
Dept. of Zoology
Kurukshetra University, Kurukshetra

Subject: Suggestions to UGBOS on the basis of feedback analysis from Faculty/Students/Alumni of Sanatan Dharma College, Ambala Cantt.

Dear Madam/Sir

This letter is in reference to the suggestions to be tendered before the UGBOS in concern to the syllabus review and updation on the basis of feedback taken from the faculty, students and alumni of the Department of Zoology, Sanatan Dharma College, Ambala Cantt. The college involved regular and former students in a feedback drive in the form of questionnaire to understand and explore suggestions on refinement and coherence in the existing syllabus of Zoology as the job market, advanced education and research field are becoming demanding and challenging which require deft and skilled incumbents. Following suggestions are proposed before UGBOS, based on the conscientious perusal of feedback:

1. Choice Based Credit System allows the flexibility in education system so that students depending upon their interests and aims can choose interdisciplinary, intra-disciplinary and skill-based courses from a list of prescribed courses. The faculty and the students' feedback strongly urge the university to adopt CBCS from the session 2021-22 so that the flexibility and impact of the programmes can be increased.
2. Animal Behaviour is an important aspect of animal science, however, the present syllabus does not include the detailed study of different topics under animal behaviour, so it is suggested to add the same.
3. Wild Life Biology is an emerging subject so it should be made a part of syllabus. Various topics like wildlife, threats, and conservation, remote sensing, GIS should be added to upgrade the Ecology Syllabus. Photography and Photo editing topics should be included in the practicals.

Contd. page 2

4. Aquaculture and Pest Management are the only topics of economic zoology and that too are limited to maximum theoretical part. Some more practicals should be added to enhance the hands on skills related to these topics.
5. The field experience creates different types of professionals in the field of Zoology such as in research and development, conservationist, ecologist, taxonomist and environmental consultant. Therefore, field-based studies and a project report should be made mandatory in the curriculum.
6. The Question Paper should be designed in a way that choice of questions be reduced for the academic excellence and also to avoid the selective approach of students in studying the curriculum.
7. There should be a provision for choice-based internship in industry and research establishments in the 5th or 6th semester for the students who wish to pursue post-graduation and research in Zoology.
8. There should be a provision to provide the students of Bachelor's programme in Zoology, an opportunity to opt one or more courses in allied disciplines to help them pursue specialization/research in interdisciplinary areas, for example, computers, statistics, and mathematics.

You are requested to consider the above suggestions in the meeting of UGBOS and take necessary actions.

Thanking you

Warm Regards,

Zeenat Madan
Head, Dept. of Zoology

**Subject: Suggestions to UGBOS based on feedback analysis from Faculty/
Students/Alumni of Sanatan Dharma College, Ambala Cantt.**

Dear Madam/Sir

We are writing concerning the syllabus review and updating based on the feedback taken from the faculty, students and alumni of the Department of Botany, Sanatan Dharma College, Ambala Cantt. The college took the feedback of regular and former students in the form of a questionnaire to seek the relevance and suggestions for improvement of the existing undergraduate syllabus of Botany given the demand of job market, higher education, research and various competitive examination. After the careful analysis of the feedback and the brainstorming session of the faculty members, the following suggestions are being proposed to UGBOS for consideration.

1. Choice Based Credit System opens pathways for several learning opportunities as the student has the flexibility to choose their course from a list of elective, core, and soft skill courses. The faculty and the students' feedback urge the university to adopt CBCS from the session 2021-22.
2. Plant Pathology is an important aspect of plant science and has tremendous scope in research, however, the present syllabus does not include the introduction of any concept of phytopathology. Terms and concepts; general symptoms; geographical distribution of diseases; etiology; host-pathogen relationships; disease cycle and, prevention and control of common plant diseases, namely, Rusts and Smuts of Wheat, TMV, Red Rot of Sugarcane, and Early and Late Blights of Potato be introduced to the students.
3. Classification of plant groups based on APG IV system be introduced.
4. The Question Paper should be divided into compulsory four units instead of two for academic excellence and also to avoid the selective approach of students in studying the curriculum.
5. The field experience creates different types of professionals in the field of

Contd. page 2

Botany such as in research and development, conservationist, plant explorer, ecologist, horticulturist, plant biochemist, nursery manager, plant pathologist, taxonomist, farming consultant and environmental consultant. Therefore, field-based studies and a project report should be mandatory in the curriculum.

6. There should be a provision for choice-based internship in industry, and research establishments in the 5th or 6th semester for the students who wish to pursue post-graduation and research in Botany.
7. There should be a provision to provide the students of Bachelor's programme in Botany, an opportunity to opt one or more courses in allied disciplines to help them pursue specialization/research in interdisciplinary areas, for example, computers, statistics, and mathematics.

You are requested to consider the above suggestions in the meeting of UGBOS and take necessary actions.

Thanking you

Subject: Suggestions to be considered in UGBOS on the basis of Feedback analysis from Faculty/Students/Alumni/Employers of the college.

Dear Sir,

It is submitted that as per the feedback received from the above stakeholders and analysis done by the undersigned the following points are hereby submitted for your kind consideration regarding the syllabi of UG courses taught in the college:

- The Choice Based Credit System (CBCS) provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill-based courses. All the stakeholders are urging to adopt the CBCS system in all UG courses from the coming session i.e., 2021-2022 so that the flexibility and effectivity of the programmes can be increased.
- Minimum No. of Ragas in BA-I.
- One Detailed Rag only in each semester.
- Same taal in Theory and Practical syllabus of each subjects.
- Practicals of each class should be conducted semester wise.
- Add short notes in BA-III also.
- Add new questions in the syllabus of BA-III.
 - Use of scientific equipment in Indian Music.
 - Effect of Rasa-Theory in Indian Music.
 - Origin and development of Rasa Theory in Indian Music.

Contd. page no. 2

--2--

- Contribution towards Music by New Artist also.
For example: 1. Sujat Khan
 2. Nilandri Ji

So, you are hereby requested to consider the above points in UGBOS and take necessary actions regarding the same.

Thanks and Regards

Subject: Suggestions to be considered in UGBOS.

Dear Sir,

As per the feedback received from the students /faculty /Alumni/Employers of our institutions list of survey based suggestions(1674 to be precise) is forwarded to you for your kind perusal in the upcoming meeting of UGBOS.

1. It has been a long and persistent demand of the students of the three year degree program of Bachelor of Arts (B.A) /Bachelor of Science (B.Sc) be converted to CBCS. This will definitely facilitate the students not only earning extra credits but would also benefit them while seeking admission in different universities for higher studies.
2. In the curriculum of B.Sc /B.A., the syllabus of the subject must be restructured that will lead to uplift the knowledge of students and will help them to pursue higher studies with a strong knowledge of different aspects of Sanskrit.
3. For the better dissemination of the subject to the students, there must be more focus on the applications, utility and relevance of the subject.

You are requested to consider the above suggestions in the meeting of UGBOS and take necessary actions.

A copy of survey and suggestions is attached herewith for your kind reference.

Sub: Suggestions to be considered by the UGBoS.

Sir

As per feedback received by the institution from students/faculty/ Alumni/ Employers, a list of suggestions is forwarded to you to be considered in the upcoming meeting of UG BoS.

1. It has been a long and persistent demand of the students that the three year degree program of BA English Honours be converted to CBCS. This would facilitate the students not only in earning extra credit points but would also benefit them while seeking admission in different universities for higher studies.
2. It has been an outstanding demand of the students of BA III (Eng. Hons) that amendments should be made in Paper XIII and XVI (Modern World Literature) as there is only one text book prescribed for the entire syllabus of Semester V and the same book continues in Semester VI.
3. 'Texts and their Worlds II' edited by K. Narayan Chandranis the prescribed text. The text has been out of publication for more than a decade because of which the students are unable to procure it. Students have to either download the individual essays/short stories/ poems from the internet or make use of the Xerox material. Kindly look into the matter and make desirable changes.
4. Also, the same syllabus has been continuing for approximately ten years without any alterations to it. The students feel it is time to bring some changes to the syllabus. Some contemporary authors and their works can find some space in the existing list of authors and poets from around the world.

Kindly consider the above suggestions and make appropriate changes in the syllabus.

Thanking you

कुरुक्षेत्र विश्वविद्यालय
कुरुक्षेत्र।
विषय : सर्वेक्षण के आधार पर यूजीबीओएस हेतु सुझाव।
महोदय,

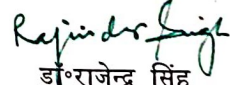

कॉलेज के विद्यार्थियों और प्राध्यापक वर्ग के माध्यम से कुछ सुझाव प्राप्त हुए हैं। आपसे निवेदन है कि आगामी यूजीबीओएस की गोष्ठी में इन को भी शामिल किया जाए। विद्यार्थियों की माँग है कि पाठ्यक्रम को रोजगार उत्पन्न करने के प्रयास हों।

.बी.ए. में प्रयोजनमूलक हिन्दी को प्रथम वर्ष से लागू करना चाहिए ताकि अंतिम वर्ष तक विद्यार्थी इसे अपने रोजगार के साधन के रूप में प्रयोग कर सकें।

हिन्दी टंकण को भी पाठ्यक्रम के साथ जोड़ा जाना चाहिए ताकि विद्यार्थी तकनीक का संपूर्ण प्रयोग अपने विषयक पाएँ।

धन्यवाद !

डॉ. विजय शर्मा
