

Feedback Report

Online Learning (Moodle Learning Management System) Session 2020-2021

Brief Description: Moodle Learning Management System (LMS) is an online platform for sharing course materials and monitoring the progress of the students. In the Pandemic Times, in Lock down period, when there was no way to provide education to the students and it was difficult to move out of Home, the faculty of Sanatan Dharma College used Moodle Learning Management System (LMS) for the online study. The gap was filled by using various online tools such as Google Meet and Zoom for online conferencing with the students. The study material, Assignments, video lectures and other related conversations were done through Moodle LMS. The students of the specific classes were enrolled with their respective teachers. Various training programs were conducted by the institute to train the staff and students. Not only the faculty of the Institution was trained, the training was also provided to faculty of other colleges of Haryana. The session 2020-2021 was conducted in online mode. After the session, feedback was collected to know the experience of the students regarding online learning.

The Following Questions were asked from the students on the Moodle LMS The faculty of System. The screen shots of the Questionnaire asked from the students through ERP is as shown:

Session:
2020-2021

Term:
Online Learning

Roll No.:

OK

The college has drawn feedback from students regarding Moodle LMS for continuous improvement in the Software to make it better for students. This report presents feedback from 118 students for the session 2020-21; the analysis of students' feedback is presented as under:

FEEDBACK FROM STUDENTS ON MOODLE LMS

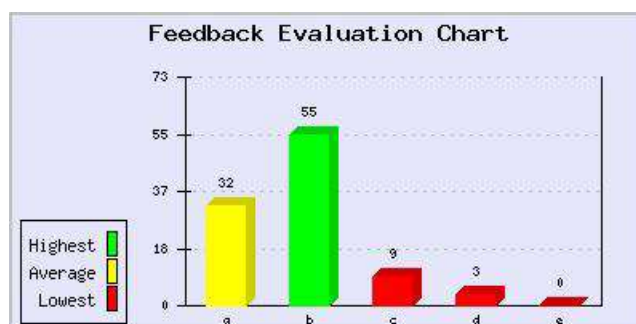

1. The Learning Management System (Moodle Platform) of the college is user friendly.

Analysis: 90% students agreed that Moodle platform is user friendly while only 0.8% disagreed with the statement.

Remarks: Most of the students are satisfied with the system so no major changes are required.

2. The Learning Management System (Moodle Platform) provides important features to aid my learning process.

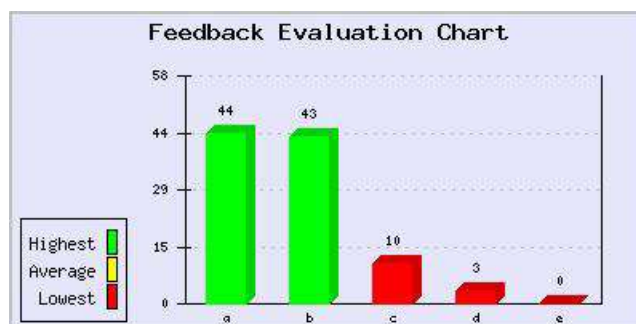

Analysis: According to feedback analysis 87% students agree that Moodle platform provides important features that aid learning process while only 3.4% disagree with the statement.

Remarks: Analysis shows that most of the students are satisfied with the features provided in the system but still some more features can be added in this platform by buying it if required.

15. Educational institutions should continue with online learning after Covid-19 Pandemic.

Analysis: 51% students agree that educational institutions should continue with online learning after Covid-19 Pandemic, 20% are neutral on this and 31% disagree with the statement.

Remarks: From the responses, it is clear that students are more interesting in offline mode of study. The faculty of the Institute is still using Moodle LMS to provide study material and other information to the students as per their requirements.

16. Do you have access to a device for online learning?

Analysis: 81% students answered that they have device for online learning, 17% answered that they have device but it doesn't work and 3% said that they don't have any device.

Remarks: It is the matter of concern for the college, that maximum students must be benefitted from the information shared by their subject teachers. In 2021-2022, the session was conducted offline, so there is no further requirement at the priority basis to have smart phones with the students.
