

Lesson Plan

Department- Computer Science

Week	Date	Class :B.VOC (Software Development)Sem-IV Paper : BVSD-44 Nomenclature :Visual Programming
1	23.03.2021	Introduction of VB & its features
2	24.03.2021	VB as an Event Driven Programming Language
	30.03.2021	The VB Integrated Development Environment. and its Element: Menu bar, Tool bars
	31.03.2021	Project Explorer, Properties Window, Form Designer, Form Layout etc
3	05.04.2021	Tool-box
	06.04.2021	Tool Box: Data base Connectivity Control
	07.04.2021	Variables & Constants in VB
4	12.04.2021	Control Statements in VB:if Else , If else if statement
	19.04.2021	Loop : For loop, While..wend Loop, Do while.. Loop,do Until loop
	20.04.2021	For..each loop
5	25.04.2021	SELECT CASE statement
	26.04.2021	Arrays in VB, Control Array
	27.04.2021	Collection is VB, How to add and remove elements in Collections
6	03.05.2021	
	04.05.2021	Holi Holiday
	05.05.2021	
7	10.05.2021	Assignment1
	11.05.2021	Functions in VB, Diff between function and procedure
	12.05.2021	Working with VB Forms
8	17.05.2021	Working with VB Forms , How to add and delete forms, How to manage forms at runtime
	18.05.2021	Subroutines in VB
	19.05.2021	Coding Event Procedure
9	24.05.2021	Drag & Drop operations
	25.05.2021	Problem solving session
	26.05.2021	Sessional
10	31.05.2021	Menu Designing, Adding menu interface to form
	01.06.2021	doubts
	02.06.2021	Dynamic menu , Implementing user Interface controls
11	07.06.2021	Assignment 2
	08.06.2021	Common Controls and their properties
	09.06.2021	Dynamic Controls

12	14.06.2021	Custom Controls
	15.06.2021	Accessing data through controls
	16.06.2021	Accessing data through code
13	21.06.2021	Accessing data through code(ADD, Select, Search, Delete)
	22.06.2021	How to add module, Using DLL in VB Applications
	23.06.2021	Database Programming Web enabled Applications
14	28.06.2021	Object oriented programming with VB
